## **First Data Request on Intervener Mirant**

### **Purpose and Need**

Background: Supplement A page 3-10 states “The SFERP could reduce costs from the operation of existing in-City generation. Because it is comprised of small flexible quick start units, the SFERP will eliminate the need to operate Potrero Unit 3 around the clock merely to ensure that a reliability unit is available to meet needs during peak hours.” The SFERP is the subject of PPA with the DWR.

### **Data Request**

1) To analyze whether the SFERP would support affordable electric bills please provide the kilowatt hour price of the RMR agreement for the Potrero Plant and the price per megawatt hour of electricity provided to the San Francisco Peninsula. Because this information is possibly protected please provide this data request reply under confidential cover subject to the attached non-disclosure certificate executed by CARE's designated non-market participant representative below.

**NON-DISCLOSURE CERTIFICATE**

I, Michael E. Boyd, have been asked by CALifornians for Renewable Energy, Inc. (CARE) to inspect certain materials that have been designated as "Protected Materials" under Paragraph 4 of the Protective Order entered in the above-captioned matter by the Administrative Law Judge by order dated June 24, 2005.

1. I hereby certify my understanding that access to Protected Materials is provided to me pursuant to the terms and restrictions of the Protective Order in this proceeding, that I have been given a copy of and have read the Order, and that I agree to be bound by it. I understand that the contents of the Protected Materials, any notes or other memoranda, or any other form of information that copies or discloses such materials shall not be disclosed to anyone other than in accordance with the Protective Order.

2. I understand that my review of Protected Materials is solely for the purpose of participating in the above-captioned matter and establishing and implementing the RAR program adopted in the proceeding, and that any other use or disclosure of such materials by me is a violation of the Protective Order.

3. I hereby agree that for a period of two (2) years from the last date on which a Disclosing Party, as defined in the Protective Order, provides me with Protected Materials, I will not engage, directly or indirectly, in any of the following activities:

(a) the purchase, sale, or marketing of electrical energy or capacity or natural gas (or the direct supervision of any employee(s) whose duties include such activities);

(b) the bidding on or purchasing of power plants (or the direct supervision of any employee(s) whose duties include such activities); or

(c) consulting with or advising others in connection with any activity set forth in 3(a) or 3(b) above (or the direct supervision of any employee(s) whose duties include such activities or consulting).

I acknowledge that engaging in any of the above activities within the two (2) year period following the last date on which a Disclosing Party, as defined in the Protective Order, provides me with Protected Materials constitutes a violation of the Protective Order. Notwithstanding any other provision of this paragraph, with respect to an ISO Reviewing Representative only, participation in the ISO's ordinary operation of the ISO-controlled grid and in its ordinary administration of the ISO administered markets, including markets for ancillary services, supplemental energy, congestion management, and local area reliability services, shall not be deemed to be a violation of this paragraph or the Protective Order.

4. I hereby agree to submit to the jurisdiction of the California Public Utilities Commission ("CPUC") for the enforcement of the undertakings I have made hereby and I waive any objection to venue laid with the Commission for enforcement of the order.

5. I acknowledge that any violation of the Protective Order shall constitute a violation of an order of the CPUC and that the parties to this proceeding and Commission Staff reserve their rights to pursue any legal or equitable remedies that may be available in the event of an actual or anticipated disclosure of Protected Materials.
